

THE SOLUTION:

Purified Water: Water that has been filtered down to a specific micron. 99% of all chemicals, chlorine, and sediment has been removed.

Dihydroxyacetone: (DHA) is an FDA approved simple carbohydrate compound, derived from plant sources such as beet sugar.

Saccharum Officinarum: The botanical name for cane sugar. When processed at specific temperatures and concentrations, this ingredient creates a natural, bronzing effect to the skin.

Whole Leaf Aloe Vera (Barbadensis): Bronze Biologic solutions and skin formulas contain a unique 200:1 Whole Leaf Aloe Vera extract that contains active nutrients, phyto-nutrients, vitamins, and minerals for optimal skin health.

Sodium Benzoate (Benzoic Acid): A naturally occurring compound with antimicrobial properties, and is found naturally in cranberries, prunes, greengage plums, cinnamon, ripe cloves and apples.

Bronze BioLOGIC is
the first company to
introduce a
cosmeceutical grade
natural spray on
tanning solution.

BEFORE YOU TAN

- EXFOLIATE WITH A WASHCLOTH OR ONE OF OUR RECOMMENDED SKIN PRODUCTS.
- KEEP YOUR SKIN FREE FROM BODY LOTION, MAKEUP, DEODORANT OR PERFUME THE DAY YOU WILL BE TANNING.
- WEAR DARK, LOOSE FITTING CLOTHES. WEAR LOOSE FITTING SHOES, SUCH AS SANDALS OR FLIP FLOPS. COTTON CLOTHING IS OPTIMAL.
- BRING A BATHING SUIT OR OTHER APPROPRIATE TANNING ATTIRE.

AFTER YOU TAN

- AFTER YOU TAN, ALLOW TAN TO DRY COMPLETELY. THE TECHNICIAN WILL ENSURE YOU ARE COMPLETELY DRY.
- ALLOW YOUR SKIN TO STAY DRY FOR AT LEAST 8 HOURS AFTER THE TANNING SESSION. THIS INCLUDES AVOIDING THE POOL, SHOWER AND BATH, AS WELL AS EXERCISE OR HEAVY PERSPIRATION. THIS WILL INCREASE THE LONGEVITY OF YOUR TAN.
- WHEN YOU DO TAKE A SHOWER, GENTLY WASH YOUR SKIN WITH HAND SOAP.
- SOME OF THE BRONZER MAY WASH OFF. THIS IS NORMAL. YOUR TAN WILL GRADUALLY FADE OVER 7 - 10 DAYS.
- USE REPLENISHING MOISTURIZER FOR LONG LASTING RESULTS
